British Heart Journal

Editor K. Shirley Smith

Assistant Editor Walter Somerville

Associate Editor Dennis Deuchar

*A monthly journal of cardiology*Editorial: Catecholamines
D. C. Fluck

Duration of phases of left ventricular systole using indirect methods. I: Normal subjects J. Fabian, E. J. Epstein, and N. Coulshead

Duration of phases of left ventricular systole using indirect methods. II: Acute myocardial infarction J. Fabian, E. J. Epstein, N. Coulshead, and C. S. McKendrick

Relation of cardiac complications to SGOT level in acute myocardial infarction B. L. Chapman

The cost-benefit analysis of a coronary care unit P. C. Reynell and M. C. Reynell

Sinus rate in acute myocardial infarction R. M. Norris, C. J. Mercer, and S. E. Yeates

Assessment of left ventricular function after myocardial infarction D. J. E. Taylor and P. G. F. Nixon

Combined treatment of atrial fibrillation with quinidine and beta-blockers G. F. Levi and C. Proto

Endomyocardial fibrosis in Caucasians previously resident in tropical Africa W. Beck and V. Schrire

Yield of ischaemic exercise electrocardiograms in relation to exercise intensity in a normal population Gordon R. Cumming
